

Reference

As a business coach working with more than 150 clients scattered all over Australia and New Zealand, my weekly diary is always fully booked and that is the way I like it. My Easy SMS system allows me to confirm appointments 3 days ahead and gives me time to allocate another time to a client when someone needs to re-schedule. I no longer find I have gaps in my day and for me time is money.

My clients love it because it is so simple for them to respond and they can send a short message if they wish to. When I am traveling I simply log in to my home computer to send out my future confirmations. I love the saving of time and best of all the cost is so small.
